ONLINE WEBINAR

AI Act: For (Truly) Responsible AI

Tuesday
23 April
2024
13H00-14H00

The AI Act is becoming a must in the professional landscape, affecting all sectors within organizations, from research and development to marketing, human resources management, regulatory compliance, legal, etc.

This webinar will explore the practical implications of the regulation and how it can influence innovation. Will in particular be addressed the integration of the principles of the AI Act into a company's strategy for more ethical AI. Beyond the examination of the legal aspects, concrete practical cases will be discussed, offering tangible perspectives on the application of these principles in your daily professional life.
